

# *Pete's Bookshelf*

Thanks for your purchase!!

You have taken the first step to getting an unbelievable deal on a very affordable, efficient web hosting plan.

The name of the company is Host Gator. Their plans are really fantastic.

I found that the plan called "Baby" is the average plan that could satisfy most people. The plan carries disk space of 600GB and bandwidth of 6000GB per month. This is at an incredible \$7.95 per month. There are not many hosting companies out there that will give you that. That doesn't even mention all of the features that come with the plan.

Just follow the link below to be taken directly to Host Gator and to get the pricing deal mentioned above.

[Click here for Host Gator!](#)

Once you get to Host Gator's site, I encourage you to look at the left side of the page, where it has "Our Most Popular Hosting Plan" and click on the "More Info" link. This will give you a better idea as to the great features you are getting for a comparatively lower price.

I wish you luck in your web hosting endeavors!! I hope that you have gotten a good start here.

Don't pass up this incredible pricing deal!!

Be sure to come back to **Pete's Bookshelf** for great deals on eBooks and general merchandise – priced reasonably.

*Thanks for shopping at Pete's Bookshelf!!!*
